I run into problem with C# code. I built the VS2008 solution, and ran it successfully. However, once I upgrade to VS2010, I always got the following error message when I run the solution: Error 1 Error C2451: language identifier not valid, for 'csc.exe' (see Help for details) I tried the following to solve the problem: Deleted all previous workspaces created by previous versions of VS. Deleted all SVN related files (solutions, projects, etc) Reset the Visual Studio to factory 0cc13bf012

By: Live2work Support, the leading global service organization In our society we have become so adept at "seeing" technology that we have lost sight of other aspects of life. We take photos on our mobile phones or tablets, and we know what the faces and profile look like. The images are usually perfect. We think that we can record video "naturally" but we often miss capturing the uniqueness or the "why", or the "what" of an event. In our work life there is an invisible aspect of the environment that is ever present, such as the phone, tablet, notebook, laptop, camera, or any other digital device. We have chosen to be connected, and to expect to be connected 24/7/365 as we go about our jobs. We are also connected to email, social media, and the Internet. Many individuals share their lives with the world on their Facebook, Instagram, or Twitter accounts. We use video when we go to a coffee shop or when we buy some flowers, and we share our every thought, or our every mood. We are never alone, and never have been. Many of us use our "smart" phones to capture "everything." The problem is that, when we look at our pictures, we see nothing more than a photo of an object, or a person. We never see the light, the shadows, the color of a person, the road, the park, the store. We see the silhouette, not the person. Why is this so? It's because we focus on what we see, instead of seeing what is there. We are so busy seeking photos, we don't take the time to really notice, to see what's there, or what is happening. People ask us how we can be so thin,
